General Editions

The series *Scope (Art & Design)* aims to engage discussion on contemporary research in the visual arts and design. It is concerned with views and critical debates surrounding issues of practice, theory, history and their relationships as manifested through the visual and related arts and activities, such as sound, performance, curation, tactile and immersive environments, digital scapes and methodological considerations. Within Aotearoa/New Zealand and its Pacific neighbours as a backdrop, but not its only stage, *Scope (Art & Design)* seeks to address the matters which concern contemporary artists and arts enquirers in their environments of practice.

EBSCO Database: *Scope: Contemporary Research Topics (Art & Design)* is catalogued on the EBSCO Database in recognition of academic quality and alignment with international peer review processes.
